

# Shalford Primary School

## Core Priorities 2024-25

**Deeper Pedagogy:** teachers and learning support assistants develop their understanding and practise of modelling, scaffolding and the application of focus groups to allow all children to take a greater responsibility for their learning.

**Effective Subject Leadership:** the school community benefits from a deep and consistent understanding from subject leaders of the pedagogy, curriculum and assessment of their subject.

**Precise English Sequences:** the school refines its approach to teaching English to ensure precise sequences are planned by teachers and purposeful outcomes are written by children.
